WEDNESDAY JUNE 22, 1892.

Principles, Not Men-In this country parties have always

-not by their leaders. In 1850 the old Whig party, or Pell-and-EVERETT party constructed no other platform than the simple words: "The Union, the Constituon, and the Enforcement of the Laws." The BRECKINGIDGE Democrats laid down a outhern people the right to move into the United States Territories and take their slaves with them and to be protected there as the owners of any other property would be protected. The Dovolas Democrats claimed for the people of each Territory the right to exclude slavery therefrom. This last is what was called "squatter sovereignty." The Reent the right to exclude slavery from all the Territories, &c. Here are well-de Whig party, whose platform seemed rather too general during the presidential campaign, but acquired a new meaning when began to drift towards war. How could there be any bolters in 1860

Here were declarations of principles which ought to have commanded and did in effect mand the support of all the voters. BRECKINBIDGE, BELL, DOUGLAS, and LINCOLS were important characters only because they represented the principles of their re-Let us bear these facts in mind for a few

days. "Principles, not men." must be our The Michigan Case.

The Michigan law redistricting the State election of President and Vice-President acquires new importance as the It would not surprise us if an assault were made upon that law all along the line if as time passes the probabilit ome great that five or six or more of Michigan's votes will be cast for the ver, that, as the school-boys say, that" if' sa pretty long letter. The vote of New York is so large that with it the Democrat Michigan, and without it half a dozen votes from Michigan would not suffice to elect ertain that the Democrats cannot make proads upon the Republicans in some of e of the Northwest have seesed to feel any attachment to the Republican party.

Our Colleges and Universities-The exhibit of the Virginia college year just closing is a most encouraging one. The aggregate attendance upon our various higher institutions of learning was gratify. ing, and the commencement records show that good and faithful work has been done these institutions have for several sessions past showed a marked tendency to increase the value of degrees by increasing the difficulty of their attainment, and there has been a consequent development of the second of the sec seriousness and moral tore of student life.

Yet, much remains to be accomplished in the way of educating the general publie to such an appreciation of our universities and colleges as will secure these the support they deserve. By many parents who can afford to give their sons the advantages of higher education the college or university course is looked upon as a useless ornamentation. This is a widespread heresy particularly among those who pride themselves upon regarding life from a practical standpoint.

However, there is nothing more practical

than a college or university training when properly directed, and to the end that the people may be brought to a recognition of this we again urge the subject of university extension upon the authorities of our colleges and universities. As we have said before, in this movement not only is higher education carried to the people but the people are drawn to the higher institutions of learning and into sympathy with the aims and ends of college and university methods. An expansion of the movement in Virginia would do more than any other one thing to fill our halls of learning with students. Richmond College, which was the pioneer of university extension in the State, has already reaped from her "free lectures" appreciable benefit both in increase of attendance and reputation. In order to make a seess of the movement as applied to the State at large it must be put on a substantial financial foundation, but we beheve that public-spirited men will be found to do this if the colleges and the universities take hold of the matter with that earnestness and concert of action it -

By the way, where did that term Mugwump come from any way? and what does it mean? The latest edition of Webster's unabridged (1891) defines a "Mugwump" as a bolter from the Re-publican party in the presidential election of An editorial article in the New York Tribune for February 16, 1877, has the follow-

ing sentence;
'tisten' John A. Logan is the Head Centre the Hub, the King Pin, the Main Spring, Mogul, and Magaump of the final plot by which partisatship was instituted in the commission."

The word Mugwump seems to have been coined by the writer of the above for the occ

sion. Is not this the origin and start of Mug-We beg pardon of the Times, but as its

question is asked in good faith we take the liberty of answering it, as follows:

Mugwump (mug-wump), n. and a. (Algenkin Mugraconp. a great man, chief, captain, leader). Used in Entor's transla-tion of the Bible (961) to render the E-terms, captain, duke, &c."—Contray Dict.

An Ourisalov.

RICHNOND, June 21, 1892.

To the Differ of the Disputch:

Mr. Overton Edward has called my attention to an omission in the quotation in my recent letter respecting the sail by the Builders Exchange in September, 1884, of a meeting to emission the formation of a mechanics' institute. The words in the resolution quoted read to consider and sid. The words and sail were in my feller, but were consisted by a typographical orror.

Respectively,

TROMAS NELSON PAGE.
